

Edgard Garcia

It has been an honor to serve as an El Centro City Council Member and Mayor. Five years ago I ran on a platform that included infrastructure improvement and promoting new business. During my tenure as a Council Member we worked as an effective team and passed Measure P. This allowed us to improve many facets of the City. We added street lighting, safer crosswalks, improved roads, and improved and built new parks. I am proud of the businesses that we have brought to the City and ask the voters to let me continue with this work and help the City grow and prosper. With the expansion of Imperial Avenue we have the opportunity to continue growing the City.

I look forward to the chance to continue building new infrastructure to better the lives of our residents and to continue to promote new businesses and employment. As Mayor I was proud to build First Responders Park and wish to continue with these exciting projects that will be assets to the City and our future generations.
