Smoke Detector and Carbon Monoxide Self Certification

This Certification is to be filled out by the Permittee

Project Address: ____________________________________________________

I, the undersigned, hereby certify that I am the permittee of the project. I further certify that smoke alarms and carbon monoxide alarms are present and tested to be functional in all the following locations:

California Residential Code (CRC) Section R314.1, CRC R315.2 states in part that existing dwellings be “retrofitted with smoke detectors and carbon monoxide detectors when a building permit is issued for, work or repairs to a building that is valued at $1,000 or more.” CRC Section R314.3, CRC R315.3 defines required locations.

Both boxes below must be checked.

☐ Carbon Monoxide Alarm: On the ceiling or wall outside of each separate sleeping area in the immediate vicinity of the bedrooms or in each hallway outside of the rooms, and each level of the dwelling.

☐ Smoke Alarms: Installed in each room used for sleeping purposes, outside each sleeping area, and on each level of the dwelling unit.

Retrofitted detectors may be battery operated. Multiple-purpose alarms (Carbon monoxide and smoke alarms) shall comply with all applicable standards, and requirements for listing and approval by the State Fire Marshall.
