The City of El Centro has been awarded a grant for a Compass Blueprint Demonstration project by the Southern California Association of Governments (SCAG). With this grant, the City is embarking on Project SHAPE.

Project SHAPE (Support Historic Apportionment Photorealistic Efforts) will serve as a road map and business plan to generate the interest of developers to invest in our downtown area. This project will evaluate the present use of the downtown area and combine historic preservation with economic development. The City along with the business and property owners will work together in order to support the endeavor that will result in a one-of-a-kind vision for the future of Downtown.

Project SHAPE – Targeted area
