

Appendix E

MS4 Outfall Map & Inventory

Intentionally Left Blank

City of El Centro MS4 Map

Note: No sampling occurred during outfall monitoring since all of the outfalls were dry, as a result, there are no sampling locations. MS4 conveyance shown includes City owned and operated storm drains. There are no known areas within the City with older infrastructure that are more likely to have illegal connections and a history of sewer overflows or cross-connections; areas with a history of past illicit discharges or illegal dumping; areas upstream of sensitive water bodies; or other areas that are likely to have illicit discharges. Additional sources: City of El Centro, State of CA.
